What's in it for you?

A weekly box of seasonal vegetables grown with love in Anderlecht from early April to mid-December (37 weeks and 37 boxes). At the beginning of the week, we'll let you know what's in the box, so you can adapt your recipes and shopping lists. To meet the needs of as many people as possible, we offer **two different sizes**:

- Large box: 7 to 8 vegetables
- Small box: 5 to 6 vegetables (reduced quantities compared to the normal basket)

The **commitment** is **for the whole season**, and **payment** can be made **in one or three installments**. However, price should not be an obstacle to your commitment. Do not hesitate to contact us to find a suitable solution.

Price range

To enable as many people as possible to sign up for our veggie boxes, we offer a range of three prices. You determine your own price, based on your income, within an indicative price range.

The **contents of the boxes will be the same**, whatever price you choose.

- **Standard price** covers the real cost of the boxes
- **Reduced price** is designed to enable people on lower incomes to enjoy our vegetables (this possibility is offered based on trust, so we won't ask you for any justification).

- **Solidarity price** allows you to choose a higher price for your subscription. This approach enables you to support small-scale peasant farming and to show solidarity with people on lower incomes.

FAQ

Can one veggie box feed my whole family?

The **large box** is ideal for **vegetable lovers** and for **families**. The **small basket** is for **single people** or moderate vegetable lovers.

It all depends on your eating habits and how often you cook your meals!

What shall I do when I'm away?

If you're away (on vacation, at work, away for the weekend, etc.), **just let a friend or member of your family know** (and us too), and **the designated person** can **come and collect your box** in your place. It's also possible to adapt your day and pick-up location from time to time.

Only vegetables from the farm in Anderlecht?

The vast majority of our vegetables are grown on our own fields. However, to **ensure diversity** in your veggie boxes and to compensate for possible production problems, some **complementary vegetables** will come **from other local and neighbouring growers** with the same production values as ours.

Who are your farmers, Zofia and Fiona?

Fiona adores being in contact with plants and the seasons. Every day is different and so is every vegetable. What's more, Fiona loves eating, and in the field there are always new things to taste!

Zofia chose to become a market gardener to give meaning to her work, and to contribute to food sovereignty. Working in the fresh air and in contact with nature, growing vegetables and sharing her love for the Earth, is what nourishes her body and her heart.
